National Codes of Ethics

Codes of Ethics of the American Medical Association, Adopted May, 1892

OF THE DUTIES OF PHYSICIANS TO THEIR PATIENTS, AND OF THE OBLIGATIONS OF PATIENTS TO THEIR PHYSICIANS.

Article 1.—Duties of Physicians to Their Patients.

Section 1. A physician should not only be ever ready to obey the calls of the sick, but his mind ought, also, to be imbued with the greatness of his mission and the responsibility he habitually incurs in its discharge. Those obligations are the more deep and enduring, because there is no tribunal, other than his own conscience, to adjudge penalties for carelessness or neglect. Physicians should therefore minister to the sick with due impressions of the importance of their office; reflecting that the case, the health, and the lives of those committed to their charge depend on their skill, attention, and fidelity. They should study, also, in their deportment, so as to unite tenderness with firmness, and condescension with authority so as to inspire the minds of their patients with gratitude, respect and confidence.

Sect. 2. Every case committed to the charge of a physician should be treated with attention, steadiness, and humanity. Reasonable indulgence should be granted to the mental imbecility and caprices of the sick. Secrecy and delicacy, when required by peculiar circumstances, should be strictly observed; and the familiar and confidential intercourse to which physicians are admitted in their professional visits should be used with discretion, and with the most scrupulous regard to fidelity and honor. The obligation of secrecy extends beyond the period of professional service; none of the privacies of personal and domestic life, no infirmity of disposition or flaw of character observed during professional attendance, should ever be divulged by the physician, except when he is imperatively required to do so. The force and necessity of this obligation are indeed so great that professional men have, under certain circumstances, been protected in their observance of secrecy by courts of justice.

Sect. 3. Frequent visits to the sick, are, in general requisite, since they enable the physician to arrive at a more perfect knowledge of the disease, to meet promptly every change which may occur, and also to tend to preserve the confidence of the patient. But unnecessary visits are to be avoided, as they give useless anxiety to the patient, tend to diminish the authority of the physician, and render him liable to be suspected of interested motives.

Sect. 4. A physician should not be forward to make gloomy prognostications, because they savor of empiricism, by magnifying the importance of his services in the treatment or cure of the disease. But he should not fail on proper occasions, to give to the friends of the patient timely notice of danger, when it really occurs; and even to the patient himself, if absolutely necessary. This office, however, is so peculiarly alarming, when executed by him, that it ought to be declined whenever it can be assigned to any other person of sufficient judgment and delicacy. For the physician should be the minister of hope and comfort to the sick; that by such cordials to the drooping spirit he may smooth the bed of death, revive expiring life, and counteract the depressing influence of those maladies which often

disturb the tranquility of the most resigned in their last moments. The life of a sick person can be shortened, not only by the acts, but also by the words or the manner of a physician. It is, therefore, a sacred duty to guard himself carefully in this respect, and to avoid all things which have a tendency to discourage the patient and depress the spirits.

Sect. 5. A physician ought not to abandon a patient because the case is deemed incurable; for his attendance may continue to be highly useful to the patient, and comforting to the relatives around him, even in the last period of fatal malady, by alleviating pain and other symptoms, and by soothing mental anguish. To decline attendance under such circumstances would be sacrificing to fanciful delicacy and mistaken liberality that moral duty which is independent of and far superior to all pecuniary consideration.

Sect. 6. Consultation should be promoted in difficult or protracted cases, as they give rise to confidence, energy, and more enlarged views in practice.

Sect. 7. The opportunity which a physician not unfrequently enjoys of promoting and strengthening the good resolutions of his patients, suffering under the circumstances of vicious conduct, ought never to be neglected. His counsels, or even remonstrances, will give satisfaction, not offense, if they be proffered with politeness, and evince a genuine love of virtue, accompanied by a sincere interest in the welfare of the person to whom they are addressed.

Art. II.—Obligations of Patients to their Physicians.

Section 1. The members of the medical profession, upon whom is enjoined the performance of so many important and arduous duties toward the community, and who are required to make so many sacrifices of comfort, ease and health for the welfare of those who avail themselves of their services, certainly have a right to expect and require that their patients should entertain a just sense of the duties which they owe to their medical attendants.

Sect. 2. The first duty of a patient is to select, as his medical adviser, one who has received a regular professional education. In no trade or occupation do mankind rely on the skill of an untaught artist; and in medicine, confessedly the most difficult and intricate of the sciences, the world ought not to suppose that knowledge is intuitive.

Sect. 3. Patients should faithfully and unreservedly communicate to their physician the supposed cause of their disease. This is the more important, as many diseases of a mental origin stimulate those depending on external causes, and yet are only to be cured by administering to the mind diseased. A patient should never be afraid of thus making his physician his friend and adviser; he should always bear in mind that a medical man is under the strongest obligations of secrecy. Even the female sex should never allow feelings of shame or delicacy to prevent their disclosing the seat, symptoms and causes of complaints peculiar to them. However commendable a modest reserve may be in the common occurrences of life, its strict observance in medicine is often attended with the most serious consequences, and a patient may sink under a painful and loathsome disease, which might have been readily prevented had timely intimation been given to the physician.

OF THE DUTIES OF PHYSICIANS TO EACH OTHER, AND TO THE PROFESSION AT LARGE.

Article 1.—Duties for the Support of Professional Character.

Section 1. Every individual, on entering the profession, as he becomes thereby entitled to all its privileges and immunities, incurs an obligation to exert his best abilities to maintain its dignity and honor, to exalt its standing, and to extend the bounds of its usefulness. He should, therefore, observe strictly such laws as are instituted for the government of its members; should avoid all contumelious and sarcastic remarks relative to the faculty, as a body; and while, by unwearied diligence, he resorts to every honorable means of enriching the science, he should entertain a due respect for its seniors who have, by their labors, brought it to the elevated condition which he finds it.

Sect. 2. It is not in accord with the interests of the public or the honor of the profession that any physician or medical teacher should examine or sign diplomas or certificates of proficiency for, or otherwise be specially concerned with the graduation of persons whom they have good reasons to believe intend to support and practice any exclusive and irregular system of medicine. (Sect. 2 was adopted in Richmond, 1881.)

Sect. 3. There is no profession from the members of which greater purity of character and a higher standard of moral excellence is required than the medical; and to attain such eminence is a duty every physician owes alike to his profession and to his patients. It is due to the latter, as without it he cannot command their respect and confidence, and to both, because no scientific attainments can compensate for the want of correct moral principles. It is also incumbent upon the faculty to be temperate in all things, for the practice of physics requires the unremitting exercise of a clear and vigorous understanding; and in emergencies, for which no professional man should be unprepared, a steady hand, an acute eye, and an unclouded head may be essential to the well-being and even to the life, of a fellow-creature.

Sect. 4. It is derogatory to the dignity of the profession to resort to public advertisements, or private cards, or handbills, inviting the attention of individuals affected with particular diseases, publicly offering advice and medicine to the poor, gratis, or promising radical cures; or to publish cases and operations in his daily prints, or to suffer such publications to be made; to invite laymen to be present at operations; to boast of cures and remedies; to adduce certificates of skill and success; or to perform any other similar acts. These are the ordinary practices of empirics, and are highly reprehensible in a regular physician.

Sect. 5. Equally derogatory to professional character is it for a physician to hold a patient for any surgical instrument or medicine; or to dispense a secret nostrum, whether it be the composition or exclusive property of himself or of others. For, if such nostrum be of real efficacy, any concealment regarding it is inconsistent with beneficence and professional liberality; and if mystery alone give it value and importance, such craft implies either disgraceful ignorance or fraudulent avarice. It is also reprehensible for physicians to give certificates attesting the efficacy of patent or secret medicines, or in any way to promote the use of them.

Art. II.—Professional Services of Physicians to Each Other.

Section 1. All practitioners of medicine, their wives, and their children while under the parental care, are entitled to the gratuitous services of any one or more of the faculty residing near them, whose assistance may be required. A physician afflicted with disease is usually an incompetent judge of his own case; and the natural anxiety and solicitude which he experiences at the sickness of a wife, a child, or any one who by the ties of consanguinity is rendered peculiarly dear

to him, tend to obscure his judgment, and produce timidity and irresolution in his practice. Under such circumstances, medical men are peculiarly dependent upon each other, and kind offices and professional aid should always be cheerfully and gratuitously afforded. Visits ought not, however, to be obtruded officiously, as such unasked civility may give rise to embarrassment, or interfere with that choice on which confidence depends. But, if a distant member of the faculty, whose circumstances are affluent, requests attendance, and an honorarium be afforded, it should not be declined, for no pecuniary obligation ought to be imposed which the party receiving it would wish not to incur.

Art. III.—Of the Duties of Physicians as Respects Vicarious Offices.

Section 1. The affairs of life, the pursuit of health, and the various accidents and contingencies to which a medical man is peculiarly exposed, sometimes require him temporarily to withdraw from his duties to his patients, and to request some of his professional brethren to officiate for him. Compliance with this request is an act of courtesy, which should always be performed with the utmost consideration for the interest and character of the family physician, and when exercised for a short period, all the pecuniary obligations for such service should be awarded to him. But if a member of the profession neglects his business, in quest of pleasure and amusement, he cannot be considered as entitled to the advantages of the frequent and long-continued exercise of this fraternal courtesy, without awarding to the physician who officiates the fees arising from the discharge of his professional duties.

In obstetrical and important surgical cases, which give rise to unusual fatigue, anxiety and responsibility, it is just that the fees accruing therefrom should be awarded to the physician who officiates.

Art. IV.—Of the Duties of Physicians in Regard to Consultation.

Section 1.—In consulations, no rivalship or jealousy should be indulged; candor, probity, and all due respect should be exercised toward the physician having charge of the case.

Sect. 2. In consultations, the attending physician should be the first to propose the necessary questions to the sick; after which the consulting physician should have the opportunity to make such further inquiries of the patient as may be necessary to satisfy him of the true character of the case. Both physicians should then retire to a private place for deliberation, and the one first in attendance should communicate the directions agreed upon to the patient or his friends, as well as any opinions which it may be thought proper to express. But no statement or discussion of it should take place before the patient or his friends, except in the presence of all the faculty attending, and by their common consent, and no opinions or prognostications should be delivered which are not the result of previous deliberation and concurrence.

Sect. 3. In consultation, the physician in attendance should deliver his opinion first; and when there are several consulting, they should deliver their opinions in the order in which they have been called in. No decision, however, should restrain the attending physician from making such variations in the mode of treatment as any subsequent unexpected change in the character of the case may demand. But such variation, and the reason for it, ought to be carefully detailed at the next meeting in consultation. The same privilege belongs also to the consulting physician, if he is sent for in an emergency, when the

regular attendant is out of the way, and similar explanations must be made at the next consultation.

Sect. 4. The utmost punctuality should be observed in the visits of physicians when they are to hold consultations together, and this is generally practicable, for society has been considerate enough to allow the plea of a professional engagement to take precedence of all others, and to be an ample reason for the relinquishment of any present occupation. But, as professional engagements may sometimes interfere, and delay one of the parties, the physician who first arrives should wait for his associate a reasonable period, after which the consultation should be considered as postponed to a new appointment. If it be the attending physician who is present, he will, of course, see the patient, and prescribe; but if he be the consulting one, he should retire, except in case of emergency, or when he has been called from a considerable distance, in which latter case he may examine the patient, and give his opinion in writing and under seal to be delivered to his associate.

Sect. 5. In consultations, theoretical discussions should be avoided, occasioning perplexity and loss of time; for there may be much diversity of opinion concerning speculative points, with perfect agreement in those modes of practice which are founded, not on hypothesis, but on experience and observation.

Sect. 6. All discussion in consultation should be held as secret and confidential. Neither by words nor manner should any of the parties to a consultation assert or insinuate that any part of the treatment pursued did not receive his assent. The responsibility must be equally divided between the medical attendants; they must equally share the credit of success, as well as the blame of failure.

Sect. 7. As circumstances sometimes occur to render a special consultation desirable when the continued attendance of two physicians might be objectionable to the patient, the member of the faculty whose assistance is required in such cases should sedulously guard against all future unsolicited attendance. As such consultations require an extraordinary portion both of time and attention, at least a double honorarium may be reasonably expected.

Art. V.—Duties of Physicians in Cases of Interference.

Section 1. Medicine is a liberal profession, and those admitted into its ranks should found their expectations of practice upon the extent of their qualifications, not on intrigue or artifice.

Sect. 2. A physician, in his intercourse with a patient under the care of another practitioner, should observe the strictest caution and reserve. No meddling inquiries should be made, no disingenuous hints given relative to the nature and treatment of his disorder; nor any course of conduct pursued that may directly or indirectly tend to diminish the trust reposed in the physician employed.

Sect. 3. The same circumspection and reserve should be observed when, from motives of business or friendship, a physician is prompted to visit an individual who is under the direction of another practitioner. Indeed, such visits should be avoided, except under peculiar circumstances; and, when they are made, no particular inquiries should be instituted relative to the nature of the disease or the remedies employed; but the topics of conversation should be as foreign to the case as circumstances will admit.

Sect. 4. A physician ought not to take charge of or prescribe for a patient who has recently been under the care of another member of the faculty in the same illness, except in cases of sudden emergency, or in consultation with the physician previously in attendance, or when

the latter has relinquished the case, or been regularly notified that his services are no longer desired. Under such circumstances, no unjust or illiberal insinuations should be thrown out in relation to the conduct or practice previously pursued, which should be justified as far as candor and regard for truth and probity will permit; for it often happens that patients become dissatisfied when they do not experience immediate relief, and, as many diseases are naturally protracted, the want of success in the first stage of treatment affords no evidence of a lack of professional knowledge and skill.

Sect. 5. When a physician is called to an urgent case because the family attendant is not at hand, he ought, unless his assistance in consultation be desired, to resign the care of the patient to the latter immediately upon his arrival.

Sect. 6. It often happens, in cases of sudden illness or of recent accidents or injuries, owing to the alarm and anxiety of friends, that a number of physicians are simultaneously sent for. Under these circumstances, courtesy should assign the patient to the first who arrives who should select from those present any additional assistance that he may deem necessary. In all such cases, however, the practitioner who officiates should request the family physician, if there be one, to be called, and unless his further assistance be requested, should resign the case to the latter on his arrival.

Sect. 7. When a physician is called to the patient of another practitioner, in consequence of the sickness or absence of the latter, he ought, on the return or recovery of the regular attendant, and with the consent of the patient, to surrender the case.

The expression "patient of another practitioner" is understood to mean a patient who may have been under the charge of another practitioner at the time of the attack of sickness, or departure from home of the latter, or who may have called for his attendance during his absence or sickness, or in any other manner given it to be understood that he regarded the said physician as his regular medical attendant.

Art. VI.—Of Pecuniary Acknowledgments

Some general rules should be adopted by the faculty in every town or district relative to pecuniary acknowledgments from their patients; and it should be deemed a point of honor to adhere to these rules with as much uniformity as varying circumstances will admit.

Art. VII.—Duties of the Profession to the Public.

Section 1. As good citizens it is the duty of physicians to be ever vigilant for the welfare of the community, and to bear their part in sustaining its institutions and burdens; they should also be ever ready to give counsel to the public in relation to matters especially appertaining to their profession, as on subjects of medical police, public hygiene, and legal medicine. It is their province to enlighten the public in regard to quarantine regulations; the location, arrangement, and dietaries of hospitals, asylums, schools, prisons, and similar institutions; in relation to the medical police of towns, as drainage, ventilation, etc.; and in regard to measures for the prevention of epidemic and contagious diseases; and when pestilence prevails, it is their duty to face the danger and to continue their labors for the alleviation of suffering, even at the jeopardy of their own lives.

Sect. 2. Medical men should also be always ready, when called on the legally constituted authorities, to enlighten coroners' inquests and courts of justice on subjects strictly medical—such as involve questions relating to sanity, legitimacy, murder by poison or other violent means,

and in regard to various other subjects embraced in the science of medical jurisprudence. But in these cases, and especially where they are required to make post-mortem examination, it is just, in consequence of the time, labor and skill required, and the responsibility and risk they incur, that the public should award them a proper honorarium.

Sect. 3. There is no profession by the members of which eleemosynary services are more liberally dispensed than the medical; but justice requires that some limit should be placed to the performance of such good offices. Poverty, professional brotherhood, and certain of the public duties referred to in the first section of this article, should always be recognized as presenting valid claims for gratuitous services; but neither institutions endowed by the public or by rich individuals, societies for mutual benefit, for the insurance of lives, or for analogous purposes, nor any profession or occupation, can be admitted to possess such privilege. Nor can it be justly expected of physicians to furnish certificates of inability to serve on juries, to perform military duty, or to testify to the state of health of persons wishing to insure their lives, to obtain pensions, or the like, without a pecuniary acknowledgment. But to individuals in indigent circumstances such professional services should always be cheerfully and freely accorded.

CODE OF ETHICS OF THE AMERICAN INSTITUTE OF HOMEOPATHY.

SCOPE.

The scope of a Code of Medical Ethics comprises the reciprocal duties and obligations of physicians and patients; the duties and obligations of physicians to each other; and the reciprocal duties and obligations of physicians and the public.

FUNDAMENTAL PRINCIPLES.

The great principles upon which medical ethics are based are these:

1. The great end and object of the physician's efforts should be, "the greatest good to the patient."

2. The rule of conduct of physicians and patients, and of physicians toward each other, should be the Golden Rule, "As ye would that men should do to you, do ye also to them likewise."

The various articles of the code are only special applications of these great principles.

PART I.

Reciprocal Duties and Obligations of Physicians and Patients.

Article I. Duties of Physicians to Patients.
Article II. Duties of Patients to their Physicians.

PART II.

Duties and Obligations of Physicians to Each Other.

Article I. Duties as Members of the Medical Profession.
Article II. Professional Services to Each Other.
Article III. Vicarious Services.
Article IV. In Regard to Consultations.
Article V. In Cases of Interference.
Article VI. Differences between Physicians.
Article VII. Concerning Pecuniary Obligations.

PART III.

Reciprocal Duties and Obligations of Physicians and the Public.

Article I. Duties of the Profession to the Public.
Article II. Obligations of the Public to Physicians.

CODE OF ETHICS OF THE NATIONAL ECLECTIC MEDICAL ASSOCIATION.

Section 1. The members of this Association shall exercise toward each other, toward all physicians—eclectics especially—and toward all mankind, that courtesy and just dealing to which every one in his legitimate sphere is entitled, and any departure therefrom shall be deemed unprofessional, undignified, and unworthy the honorable practitioner of an honorable profession. It shall be regarded as unbecoming to engage in any form of practice, or of advertising, which shall tend to lower the physician in the esteem of the community, or to reflect discredit upon his professional associates.

Sect. 2. While it is the undoubted right of every physician to present himself before the public in an honorable manner, and to state that he makes a specialty of any particular disease, no member of this Association shall advertise himself by handbills, circulars, publication or certificates of cures, or any such means; nor associate himself in business professionally with any one so doing; nor advertise himself as belonging to this Association, or any auxiliary medical society or any medical college. Any member knowing of any violation of this provision by members of this Association, or of any person not a member of this Association or any auxiliary medical society advertising himself as such, shall inform the Executive Committee of the matter with all the facts in his possession; and it shall be the duty of the Executive Committee thereupon to publish the facts in some public journal circulating in the region where such offense has been committed.

Discipline of Members.

Section 1. Any member may be officially censured, invited to withdraw, or expelled from membership, for improper conduct, or a violation of professional comity. But it shall be necessary for a specific charge to be made in writing, and a copy to be presented to the person accused, or some person acting in his behalf, and another placed in the hands of the president or secretary one month before the time of holding a regular meeting.

Sect. 2. All professors or officers of colleges voting and otherwise co-operating in the conferring of the degree of Doctor of Medicine on any person not duly entitled to the same, by the necessary attendance on medical lectures and through examinations, shall be considered as liable to the penalties enumerated in this article.

Code of Dental Ethics

ADOPTED AT THE SIXTH ANNUAL SESSION OF THE AMERICAN DENTAL ASSOCIATION.

Article I.—The Duties of the Profession to the Patients.

Section 1. The dentist should be ever ready to respond to the wants of his patrons, and should fully recognize the obligations involved in the discharge of his duties toward them. As they are, in most cases, unable to correctly estimate the character of his operations, his own sense of right must guarantee faithfulness in their performance. His manner should be firm, yet kind and sympathizing, so as to gain the respect and confidence of his patients; and even the simplest case com-

mitted to his care should receive that attention which is due to operations performed on living sensitive tissue.

Sect. 2. It is not to be expected that the patient will possess a very extended or a very accurate knowledge of professional matters. The dentist should make due allowance for this, patiently explaining many things which may seem quite clear to himself, thus endeavoring to educate the public mind so that it will properly appreciate the beneficent efforts of our profession. He should encourage no false hopes by promising success, when, in the nature of the case, there is uncertainty.

Sect. 3. The dentist should be temperate in all things, keeping both mind and body in the best possible health, that his patients may have the benefit of that clearness of judgment and skill which is their right.

Art. II.—Maintaining Professional Character.

Section 1. A member of the dental profession is bound to maintain its honor, and to labor earnestly to extend its sphere of usefulness. He should avoid everything in language and conduct calculated to dishonor his profession, and should ever manifest a due respect for his brethren. The young should show special respect to their seniors; the aged special encouragement to their juniors.

Sect. 2. The person and office arrangements of the dentist should indicate that he is a gentleman; and he should sustain a high-toned moral character.

Sect. 3. It is unprofessional to resort to public advertisements, cards, handbills, posters or signs, calling attention to peculiar styles of work, lowness of price, special modes of operating; or to claim superiority over neighboring practitioners; to publish reports of cases or certificates in the public prints; to go from house to house to solicit or perform operations; to circulate or recommend nostrums; or to perform any other similar acts.

Sect. 4. When consulted by the patient of another practitioner, the dentist should guard against inquiries or hints disparaging to the family dentist, or calculated to weaken the patient's confidence in him; and if the interest of the patient will not be endangered thereby, the case should be temporarily treated, and referred back to the family dentist.

Sect. 5. When general rules shall have been adopted by members of the profession practicing in the same localities in relation to fees, it is unprofessional and dishonorable to depart from those rules, except when variation of circumstances requires it. And it is ever to be regarded as unprofessional to warrant operations or work as an inducement to patronage.

Art. 3.—The Relative Duties of Dentists and Physicians.

Dental surgery is a specialty in medical science. Physicians and dentists should both bear this in mind. The dentist is professionally limited to diseases of the dental organs and the mouth. With these he should be more familiar than the general practitioner is expected to be; and while he recognizes the superiority of the physician in regard to diseases of the general system, the latter is under equal obligations to respect his higher attainments in his specialty. When this principle governs, there can be no conflict or even diversity of professional interests.

Art. IV.—The Mutual Duties of the Profession and the Public.

Dentists are frequently witnesses, and, at the same time, the best judges of the impositions perpetrated by quacks, and it is their duty to enlighten and warn the public in regard to them. For this and the

many other benefits conferred by the competent and honorable dentists. the profession is entitled to the confidence and respect of the public, who should always discriminate in favor of the true man of science and integrity, against the empiric and impostor. The public has no right to tax the time and talents of the profession in examinations, prescriptions or in any way without proper remuneration.

THE LAW RELATING TO THE REGISTRATION OF PHYSICIANS.

(Revised Laws, January 1, 1902.)

Section 1. There shall be a board of registration in medicine con-

sisting of seven persons, residents of this commonwealth, who shall be graduates of a legally chartered medical college or university having the power to confer degrees in medicine, and who shall have been for ten years actively employed in th practice of their profession. No member of said board shall belong to the faculty of any medical college or university, and no more than three members thereof shall at one time be members of any one chartered state medical society. One member thereof shall annually in June be appointed by the governor, with the advice and consent of the council, for a term of seven years from the first day of July following.

Sect. 2. Said board shall hold regular meetings on the second Tuesday of March, July and November in each year, and additional meetings at such times and places as it may determine. At the regular meeting in July, it shall organize by the choice of a chairman and secretary who shall hold their offices for the term of one year. The secretary shall give a bond to the treasurer and receiver general in the penal sum of five thousand dollars, with sufficient sureties to be approved by the governor and council, for the faithful performance of his official duties.

Sect. 3. Applications for registration shall be made upon blanks to be furnished by the board, and shall be signed and sworn to by the applicants. Each applicant for registration shall furnish satisfactory proof that he is twenty-one years of age or over and of good moral character, and upon payment of a fee of twenty dollars, shall be examined by said board. If he be found by four or more members thereof to be 21 years of age or over, and of good moral character, and qualified, he shall be registered as a qualified physician and shall receive a certificate thereof signed by the chairman and secretary. An applicant who fails to pass an examination satisfactory to the board, and therefore refused registration, shall be entitled within one year after such refusal to a re-examination at a meeting of the board called for the examination of applicants, without the payment of an additional fee; but two such re-examinations shall exhaust his privilege under his original application. Said board, after hearing, may by unanimous vote revoke any certificate issued by it and cancel the registration of any physician who has been convicteed of a felony or of any crime in the practice of his profession. All fees received by the board shall, once a month, be paid by its secretary into the treasury of the Commonwealth.

Sect. 4. Examinations shall be wholly or in part in writing in the English language, and shall be of a scientific and practical character. They shall include the subjects of anatomy, surgery, physiology, pathology, obstetrics, gynecology, practice of medicine and bygiene, and shall be sufficiently thorough to test the applicant's fitness to practice medicine.

Sect. 5. Whoever, not being lawfully authorized to practice medicine within this Commonwealth and registered as aforesaid, holds himself out as a practitioner of medicine, or practices or attempts to practice medicine in any of its branches, or whoever practices medicine or surgery under a false or assumed name, or under a name other than that by which he is registered, or whoever personates another practitioner of a like or different name, shall, for each offense, be punished by a fine of not less than one hundred nor more than five hundred dollars, or by imprisonment for three months, or by both such fine and imprisonment.

Sect. 6. The provisions of the five preceding sections shall not be held to discriminate against any particular school or system of medicine, to prohibit medical or surgical service in a case of emergency, or to prohibit the domestic administration of family remedies. They

shall not apply to commissioned medical officer of the United States army, navy or marine hospital service in the performance of his official duty; to a physician or surgeon from another state who is a legal practitioner in the state in which he resides, when in actual consultation with a legal practitioner of this commonwealth; to a physician or surgeon residing in another state and legally qualified to practice therein, whose general practice extends into the border towns of this Commonwealth, if such physician does not open an office or designate a place in such towns where he may meet patients or receive calls.

BOARD OF REGISTRATION IN DENTISTRY.

J. F. Dowsley, President, Boston; G. E. Mitchell, Secretary, Haverhill; T. J. Barrett, Worcester; G. A. Maxfield, Holyoke; W. W. Marvel, Fall River.

There shall be a board of registration in dentistry, consisting of five persons, male or female, residents of and doing business in this Commonwealth, who shall be skilled dentists of good repute, shall have been regularly graduated from a reputable medical or dental college duly authorized to grant degrees in dentistry. No member of the board shall in any way be connected with a dental college or dental department of any college or university in which he has any pecuniary interest. The governor, with the advice and consent of the council, shall appoint one member of said board in the year nineteen hundred and two and two members in each of the years nineteen hundred and three and nineteen hundred and four, and in like manner two members shall be appointed annually, in April, except in every third year, when one shall be appointed.

Said board shall, from its members, choose a chairman and a secretary, and it shall meet at least twice in each year. Four of said board shall constitute a quorum, and the proceedings thereof, at all reasonable times be open to public inspection.

Any person of twenty-one years of age or over, upon payment of a fee of twenty dollars, which shall not be returned to him, may be examined by said board at a regular meeting with reference to his knowledge and skill in dentistry and dental surgery; and if his examination is satisfactory to said board, and he is found to possess the requisite qualifications, the board shall issue a certificate, signed by the chairman and secretary, which shall be prima facie evidence of the right of the holder to practice dentistry in this Commonwealth. Such certificate, or a duplicate shall be in plain view of his patients; and every person who owns or carries on a dental business shall exhibit his full name in plain readable letters in each office or room in which such business is transacted. An applicant who fails to pass a satisfactory examination shall be entitled to one re-examination at any future meeting of the board, free of charge, but for each subsequent examination he shall pay five dollars. Said board shall annually, on or before the first day of January, make a report of its proceedings to the governor. All fees received by the board shall be paid monthly by its secretary into the treasury of the commonwealth.

Whoever falsely claims or pretends to have or hold a certificate granted by said board, or falsely and with intent to deceive, claims or pretends to be a graduate from any incorporated dental college, or who performs any operation on, or makes examination of, with the intent of performing or causing to be performed any operation on the human teeth or jaws, without obtaining a certificate as required by law, and any person or corporation owning or carrying on a dental business, and in said business employing or permitting any person to perform an operation or to make an examination aforesaid, unless such

person first obtains and holds a certificate thereof as required by law, or having such certificate fails to post the same as required by section twenty-six, and whoever owns or carries on a dental business and fails to exhibit his name as required by section twenty-six shall, for each offence, be punished by a fine of not less than fifty nor more than one hundred dollars or by imprisonment for three months, and in case of a corporation, the officers or manager of such corporation shall also be liable to said fine and penalty.

This act shall take effect upon its passage. (Approved April 13, '05.) Repealed by Chapter 505 of the Acts of 1902. Chapter 219, Acts of 1903.

Maine Medical Laws

BOARD OF REGISTRATION OF MEDICINE.

Rules Adopted by the Board of Registration of Medicine in Accordance With Chapter 275, Acts of 1901, Relating to Reciprocity of Registration With Other States.

Any person who is eligible for examination before this board and who has been examined and registered or licensed by the examining board of any other state, which maintains a standard of education at least equal to that required in this State, may be registered by this board and have a certificate issued to him, signed by the chairman and secretary, upon complying with the following requirements, to wit:

He shall present to the secretary of this board an application (the blank for which will be furnished by the secretary upon request therefor) giving

1. Name, postoffice address and date.
2. Place and date of birth.
3. Present residence.
4. Proposed residence.
5. Source and amount of preliminary or academic education with degrees held.
6. Source, character and dates of medical education and graduation.
7. A certificate signed by the president, secretary or dean of the college or school granting the diploma, giving a brief history of his connection with the college or school, and bearing its seal.
8. The location and period of medical practice.
9. The date of examination and licensing by the attesting board.
10. A certified copy of the certificate or license bearing the seal of the board.
11. An affidavit of the secretary of the board stating the facts of issue of certificate or license after a written examination in not less than seven branches, naming each, with its rating by the board, and the general average of all, which must not be less than 75 per cent.
12. An affidavit of the president or chairman of the board affirming the secretary's affidavit.
13. An affidavit of the president or secretary of some State or local medical society that the applicant is at present in good professional standing.
14. An affidavit of the applicant that he (or she) is the person named in the certificate and that all the statements in the application are true.

The application when completed shall be sent to the secretary of the board with a fee of twenty-five dollars enclosed; and if found satisfactory and the State granting the original license will reciprocate by accepting the certificate of this board under a similar application, the chairman and secretary will forthwith forward the certificate of the board and admit the applicant to registration with the same privilege as if examined by this board.

The fees of the chairman and secretary for furnishing the same or similar evidence for a license of this board to register in other States shall be five dollars.

DENTAL LAWS OF MAINE.

STATE BOARD OF DENTAL EXAMINERS.

(An Act to insure the better education of practitioners of Dental Surgery and to regulate the practice of Dentistry in the State of Maine.)

Be it enacted by the Senate and House of Representatives in Legislature Assembled, as follows:

No person shall practice, attempt to practice or hold himself out to be a practitioner of dentistry or dental surgery until he or she shall have first received a certificate as hereinafter provided; and whoever violates the provisions of this section shall be fined not less than twenty-five nor more than one hundred dollars for each offense. This section shall take effect three months after the approval of this Act.

A Board of Examiners to consist of five dentists of good standing who have been in the practice of dentistry in this State not less than five years, is hereby created. The members of said Board shall be appointed by the Governor with advice and consent of council, to hold office for the term of three years and until their successors are qualified, except, however, that the first five members to constitute said board shall be appointed to hold as follows, to wit: Two for the term of one year, two for two years, and one for three years. Vacancies in said Board at any time occurring shall be filled by the Governor in accordance with the provisions of this section.

Before entering upon their duties the members of said Board shall take and subscribe the oaths prescribed by law to be taken by other officers appointed in like manner. As soon as convenient after their duties the members of said Board shall meet and organize by choosing one of their number who shall serve as President and another as Secretary for the ensuing year and until their successors are chosen, and shall meet annually thereafter at a time and place to be determined by said Board at its previous annual meeting, and may meet at such other times and places as said Board may deem necessary.

Any person desiring to practice dentistry or dental surgery in this State who is not entitled to register under the preceding section, upon first passing a satisfactory examination before said Board in anatomy, physiology, pathology, therapeutics, chemistry and the theory and practice of dentistry, and on the payment of the fee as provided in Section 7 of this Act, shall be entitled to registration and shall receive a certificate as provided in this Act.

The Board shall receive from the applicant for each certificate issued under this Act the sum of one dollar. For the examination of each person under the provisions of Section 5, twenty dollars, which shall in no case be returned, but shall entitle the applicant to another examination without payment of additional fees. The above fees shall be in full for all services and expenses.

Nothing in this Act shall be construed as to restrict or interfere with physicians and surgeons in the discharge of their professional duties or with any citizen in the extraction of teeth in cases of emergency.

New Hampshire Medical Laws

An act to regulate the licensing and registration of physicians and surgeons.

Be it enacted by the Senate and House of Representatives in General Court convened.

Sec. 1. No person shall hold himself out to the public as a physician and surgeon, or advertise as such, or use the title of M. D. or Dr. (or any title which shall show or tend to show that the person using the same is a practitioner of any of the branches of medicine) in New Hampshire after September 1, 1897, unless previously registered and authorized, or unless licensed and registered as required by this chapter; nor shall any person practice medicine and surgery whose authority to practice is suspended or revoked by the agent of a State Board.

Within sixty days after the passage of this act, the Governor and Council shall appoint three separate State Boards of Medical Examiners, of five members each, so appointed that the term of office of one member shall expire each year, and the members thereafter appointed shall hold office five years, or until their successors are appointed and qualified. One board shall represent the New Hampshire Medical Society, one the New Hampshire Homeopathic Medical Society, and one the New Hampshire Eclectic Society. Each of these three societies shall nominate, annually, twice the number of examiners to be appointed in that year on the Board representing it. The names of such nominees shall be annually transmitted, under seal, by the President and Secretary, to the Governor and Council, who shall appoint from such lists the examiners required to form the Boards and to fill any vacancy that may occur from expiration of office or otherwise. Each nominee, before appointment, shall furnish to the Governor and Council satisfactory proof that he has received the degree of doctor of medicine from some registered medical school, and that he has legally practiced medicine in this State for at least five years. If no nominees are presented from a society to the Governor and Council, they may appoint from members in good standing in such society without restriction. The Governor and Council, upon recommendation of the Board, may remove any examiner for misconduct, incapacity, or neglect of duty.

Sec. 2. Each board shall annually elect from its members a President and Secretary for the year, and shall hold one or more meetings each year, pursuant to call of the regent, who may also call joint meetings of the three Boards or of their officers. At any meeting a majority shall constitute a quorum, but questions prepared by the Boards may be grouped and edited, or answer papers of candidates may be examined and marked, by committees duly authorized by the Boards.

Sec. 3. The regent shall admit to examination any candidate who pays a fee of $10 and submits satisfactory evidence, verified by oath, if required, that he:

1. Is more than twenty years of age.
2. Is of good moral character.
3. Has graduated from a registered college; or satisfactorily completed a full course in a registered academy or high school; or had a preliminary education considered and accepted by the regent as fully equivalent.

4. Has studied medicine not less than four full school years, of at least nine months each, including four satisfactory courses, of at least six months each, in four different calendar years, in a medical college registered as maintaining at the time a satisfactory standard. The regent shall accept, as the equivalent for any part of the third and fourth requirements, evidence of five or more years' reputable practice, provided that such substitution be specified in the license.

Has either received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full right to practice medicine in some foreign country.

Students who matriculate in a New Hampshire medical school before January 1, 1898, on the prescribed study of medicine, shall be exempt from the preliminary education requirement.

Sec. 4. Each Board shall submit to the regent, as required, lists of suitable questions for thorough examinations in anatomy, physiology and hygiene, chemistry, surgery, obstetrics, pathology and diagnosis, and therapeutics, including practice and materia medica. From these lists the regent shall prepare question papers for all these subjects, which at any examination shall be the same for all candidates, except that in therapeutics, practice and materia medica all the questions submitted to any candidate shall be chosen from those prepared by the Board selected by that candidate and shall be in harmony with the tenets of that school, as determined by its State Board of Medical Examiners.

Sec. 5. Examinations for license shall be given at Concord, in this State, and at least twice annually, and shall be exclusively in writing and in English. If a candidate fails on first examination he may, after not less than six months further study, have a second examination without fee. If the failure is from illness, or other cause satisfactory to the Boards, they may waive the required six months' study.

Sec. 6. The first meeting of the Boards may be called by any one of the members by a notice in writing, stating the time and place of meeting, sent by mail to each of the other members, at least one week prior thereto.

An act to amend Section 6, Chapter 63, of the laws of '97, in relation to the Practice of Medicine.

Section 1. Physicians from other States; Admission to Practice.

Section 1. Amend Chapter 63 of the laws of '97, by adding the following to Section 6 of said chapter: Any legal practitioner of medicine and surgery in any other State or territory, which will grant to physicians and surgeons registered in this State similar privileges, shall be admitted to practice medicine and surgery in this State by paying he usual fee of ten ($10) dollars and presenting to the Boards of Medical Examiners a satisfactory diploma from some medical school, a certificate of registration, or license to practice medicine from the state or territory from which he comes, and evidence satisfactory to said Boards of Examiners of his professional standing. Approved February 20, 1907.

DENTAL LAWS OF NEW HAMPSHIRE.

Board of Registration in Dentistry.

G. A. Bowers, President, Nashua; A. J. Sawyer, Secretary, Pembroke Building, Manchester; H. R. Beals, Treasurer, Keene.

There shall be a State Board of Registration in Dentistry, composed of three skilled dentists of good repute, residing and doing business in the State, who shall be appointed by the Governor, with the advice of the Council, and shall hold office for three years, unless sooner removed by the same authority for cause. Vacancies shall be

filled by appointment in like manner for the unexpired term.

No person shall be eligible for appointment unless he graduated from some reputable medical or dental college authorized to grant degrees in dentistry, or has practiced dentistry for ten years prior to his appointment.

The Board shall choose from its number a president and secretary, and it shall meet at least once in each year. Two members shall constitute a quorum.

Any person may appear before the Board at a regular meeting, and be examined with reference to his knowledge and skill in dentistry and dental surgery and the Board shall issue to such persons as it finds qualified to practice dentistry, a certificate to that effect.

The Board shall charge each person for a certificate of qualification a fee of ten dollars. (Substituted for "five" 1899, 87:1.) Any person failing to pass a satisfactory examination shall be entitled to be re-examined at any future meeting of the Board. The Board shall make a report of its proceedings to the Governor by the thirty-first day of December in each year. All fees received by the Board shall be paid into the treasury of the State.

Any person who shall falsely pretend to have or hold a certificate of qualification granted by the Board, or who shall falsely and with intent to deceive, pretend to be a graduate from any incorporated dental college, or who shall practice dentistry without having a certificate as provided by law, or who shall violate any of the provisions of this chapter, shall be fined not more than one hundred dollars for each offense.

Any association of persons, whether incorporated or not, engaged in the practice of dentistry under the name of company or association, or any other name, shall cause to be displayed and kept in a conspicuous place in its office a certificate from said Board of the qualification of each person engaged in the practice of dentistry in said office. Any violation of this section shall subject the managers of said office to punishment by a fine not exceeding one hundred dollars.

Vermont Medical Laws

Persons who wish to practice medicine and surgery in the State of Vermont must comply with the requirements of the following sections of the Public Acts of 1904, entitled, "An Act Creating a Board of Medical Registration."

Section 7. Any person twenty-one years of age and of good moral character, who is a graduate of a legally chartered medical college or university, having power to confer degree in medicine and surgery, and said medical college or university being recognized as determined by the Board, shall upon payment of a fee of fifteen dollars, be entitled to examination, and, if found qualified, shall be licensed to practice medicine and surgery in the State of Vermont and receive a license certificate signed by the president and secretary of the Board.

Any person refused a license may be re-examined at any regular meeting of the Board within one year of the time of such refusal without additional fee.

The Board, after hearing, may revoke the certificate of any person licensed by them, who has been convicted before a court of a crime committed in the course of professional business.

Sec. 8. The examination shall be in whole, or in part, in writing, and shall be of a practical character, sufficiently strict to test the qualifications of the applicant as a practitioner of medicine.

The examination shall embrace the general subjects of anatomy, physiology, chemistry, pathology, practice of medicine, surgery, obstetrics, gynaecology, hygiene, and materia medica, but it is hereby provided the examination in materia medica shall be conducted by the members of the Board who represent the same school of practice as that of which the applicant is a graduate.

Each applicant shall pass at least an average of 75 per cent. to entitle him to a license.

Sec. 9. A person to whom a license certificate is thus issued, in order to make it valid, shall within thirty days from date thereof, cause the same to be recorded in the office of the Secretary of State in a book to be provided by said Secretary of State for that purpose, for which the record fee shall be twenty-five cents.

Sec. 10. Any person who shall practice medicine or surgery under a fictitious or assumed name, or who shall personate another practitioner of a like or different name, or who, not being licensed as aforesaid, shall advertise or hold himself out to the public as a physician or surgeon in this State, or sign a certificate of death for the purpose of burial or removal, shall be punished by a fine of not less than fifty dollars, or more than two hundred dollars, or by imprisonment in the house of correction not more than three months, or both, and no action of any kind shall be had or maintained by any such person in any court in this State for the recovery of any compensation for such services.

Nothing in this act, however, shall be construed to prevent any non-resident physician or surgeon from coming into the State in consultation with a legally qualified practitioner in this State.

Sec. 11. The Board shall issue licenses without examination to present a certified copy of certificate of registration, or license, which has been issued to said applicant in another State of the Union, where

the requirements for registration shall be deemed by said Board to be equivalent to those of this State, provided such State shall accord a like privilege to holders of a license granted under the laws of this State.

Each applicant for such license shall pay to the Board the sum of ten dollars.

DENTAL LAWS OF VERMONT.

State Board of Dental Examiners.

K. L. Cleaves, President, Montpelier; J. H. Jackson, Secretary-Treasurer, Burlington; G. H. Cheney, St. Johnsbury; L. E. Mellen, Middlebury; E. O. Blanchard, Randolph.

An act to regulate the practice of dentistry.

It is hereby enacted by the General Assembly of the State of Vermont:

A Board of Dental Examiners is hereby created which shall consist of five dental practitioners, to be appointed by the Governor in the month of November, 1904, whose terms of office shall be one, two, three, four and five years respectively from the first day of the following December; and annually thereafter the Governor shall appoint one examiner whose term of office shall be for five years from the first day of the following December, and until his successor is appointed. All vacancies shall be filled by the Governor.

The meetings of the Board shall be held annually or oftener on the call of three members, who shall give thirty days' notice thereof in at least three dental journals circulating in this State.

Upon the payment of fee of twenty-five dollars, the Board of Dental Examiners shall at its meetings, examine applicants and grant licenses to such applicants as they shall find qualified. An applicant who fails to pass a satisfactory examination shall be entitled to a re-examination at any future meeting of the Board without fee, but for any subsequent examination a fee of five dollars shall be paid.

If any person without a license practices dentistry he shall be punished by a fine of not more than one hundred dollars and not less than twenty-five dollars. But this section shall not apply to extracting teeth.

The Board of Dental Examiners shall keep a book in which it shall enter the names of each person who receives a license from the Board of Dental Examiners. The Board of Dental Examiners shall, within thirty days of the date thereof, cause it to be recorded in the office of the Secretary of State who shall be entitled to a fee of fifty cents for recording the same.

If a person does not cause his license to be recorded within the time required by the preceding section, he shall forfeit the same, and shall not be re-licensed until he has paid the Board a fee of twenty-five dollars.

The Board of Dental Eaxminers may without examination issue a license to practice to any other dentist who shall have been in legal practice in some other state or territory for a period of at least five years, upon the certificate of the Board of Dental Examiners or a like board of the state or territory in which such dentist was a practitioner, certifying his competency and that he is of good moral character; and upon the payment of twenty-five dollars.

Any duly licensed dentist of this state who is desirous of changing his residence to that of another state shall upon application to the Board of Dental Examiners receive a certificate which shall attest that he is a duly licensed dentist in the State of Vermont. The same shall be given without fee.

Chapter 191 of the Vermont Statutes and all amendments thereto are hereby repealed.

This act shall take effect from its passage.

Approved November 30, 1904.

Rhode Island Medical Laws

MEDICAL LAW OF RHODE ISLAND.
(As Amended November, 1901.)

Section 1. It shall be the duty of each town and city clerk to purchase a book of suitable size, to be known as the "Medical Register" of each city or town, and to set apart one full page for the registration of each physician; and when any physician shall die or remove from the city or town, said clerk shall make a note of the same at the bottom of the page, and shall on the first day of January in each year transmit to the office of the State Board of Health a duly-certified list of the physicians of said city or town registered under this chapter, together with such other information as is hereinafter required, and perform such other duties as are required by this chapter; and such clerk shall receive the sum of fifty cents from each physician so registered, which shall be his full compensation for all the duties required under this chapter.

Sec. 2. It shall be unlawful for any person to practice medicine or surgery in any of its branches, within the limits of this state, who has not exhibited and registered, in the city or town clerk's office of the city or town in which he or she resides, his or her authority for so practicing medicine as herein prescribed, together with his or her age, address, place of birth and the school or system of medicine to which he or she proposes to belong; and the person so registering shall subscribe and verify by oath, before such clerk, an affidavit containing such facts, which, if willfully false, shall subject the affiant to conviction and punishment for perjury.

Sec. 3. Authority to practice medicine under this chapter shall be a certificate from the State Board of Health, and said Board shall, upon application, after examination, issue a certificate to any reputable physician who intends to practice medicine or surgery in this state and who shall present himself before the State Board of Health and pass in a satisfactory manner such examination as said Board may require. Any physician so presenting himself shall pay to said Board the sum of ten dollars ($10) for each examination, and said fee shall in no case be returned, but shall be applied to pay the expenses of said Board of Health in conducting such examinations. Each certificate so issued shall be signed by the president and countersigned by the secretary of said Board and shall be attested by the official seal, and not more than two dollars ($2) shall be charged for a certificate.

Sec. 4. Nothing in this chapter shall be so construed as to authorize any itinerant doctor to register or to practice medicine in any part of this state.

Sec. 5. The Board may, after due notice and hearing, in its discretion refuse to grant the certificate provided for in section 3 of this chapter to any physician who is not of good moral character or who has violated any of the laws of the state, or who has been guilty of gross unprofessional conduct or conduct of a character likely to deceive or defraud the public, and may, after due notice and hearing revoke any certificate issued or granted by it heretofore for like cause or for any fraud or deception committed in obtaining such certificate, or for any other cause which in the opinion of said Board shall render the holder of such certificate an unfit person to practice medicine in this state. The members of said Board are hereby severally authorized to administer oaths, and said Board, in all cases or proceedings pending before it is hereby authorized and empowered to summon witnesses by subpoena

signed by the secretary of said Board, and to compel such witnesses to attend and testify in the same manner as witnesses are compelled to appear and testify in either division of the supreme court; and said board is authorized to compel the production of all papers, books, documents, records, certificates, or other legal evidence that may be necessary or proper for the determination and decision of any question or the discharge of any duty required by law of said Board, by issuing a subpoena duces tecum, signed by the secretary; and every person disobeying any such writ shall be considered as in contempt, and said Board may punish any contempt of its authority in like manner as contempt may be punished by either division of the Supreme Court. Any person who shall wilfully swear falsely in any proceeding, matter, or hearing before said Board shall be deemed guilty of the crime of perjury. Said Board shall serve a copy of its decision or ruling upon any person whose certificate has been refused or revoked. Any person aggrieved by any decision or ruling of said Board may, within ten days after receiving said notice, exclusive of Sundays and legal holidays, take an appeal therefrom to the appellate division of the Supreme Court, sitting at Providence, and shall file therein his reasons of appeal, and serve a copy thereof on the secretary, or person performing the duties of secretary, of said Board; and said appellate division of the Supreme Court shall, as soon as may be, hear and determine said appeal.

DENTAL LAWS OF RHODE ISLAND.

Board of Registration in Dentistry.

F. G. Eddy, President, Providence; H. L. Grant, Secretary, 1025 Banigan Bldg., Providence; C. H. Davis, Pawtucket; A. L. Midgley, Providence; J. F. Gilbert, Woonsocket.

There shall be a Board of Registration in Dentistry consisting of five members, all of whom shall be graduates in dentistry, residing and practicing as dentists within the state. The members of said Board in office at the passage of this act shall continue to hold their offices for the remainder of the terms for which they were respectively appointed. At the January session of the General Assembly in each year, the Governor, with the advice and consent of the Senate, shall appoint some such person or persons to succeed the member or members of said Board whose terms will next expire; and the persons so appointed shall hold their offices until the first day of February in the third year after their appointment.

Said Board shall choose one of its members president, and one secretary thereof, and three of its members shall constitute a quorum. It shall meet at least once a year, or oftener at the call of three members.

It shall be the duty of every person engaged in the practice of dentistry in the state, to cause his or her name and place of business to be registered with said Board, who shall keep a book for that purpose; and persons so registering shall receive a certificate to that effect from the Board.

All persons who hereafter intend to enter the practice of dentistry in this state, shall appear before said board and be examined with reference to their knowledge and skill in dentistry; and to such as pass a satisfactory examination, certificates to that effect, signed by the president and secretary of the Board, shall be issued; and thereupon the names of such persons receiving certificates, as aforesaid, shall be registered with said board.

Each person applying for an examination shall pay to said board, before examination, the sum of twenty dollars, which shall in

no case be returned. In case of failure on the part of any person to pass a satisfactory examination, such person shall be entitled to a second examination before said Board, at a subsequent meeting thereof, upon payment to the Board of the sum of five dollars. The fees received for examinations, shall be applied to defray the expenses of said board.

Every practicing dentist shall keep his certificate or license, or in case it be lost, a duplicate thereof, posted in some conspicuous place or manner, so as to be in plain view of his patients; and every person, firm or corporation owning or carrying on a dental business in any office, or other room or rooms, shall have, if a person, his or her full name, if a firm, the full names of the members thereof, and if a corporation, the full corporate name thereof, exhibited in plain, readable letters in such office or other room or rooms. Whoever violates any of the provisions of this section shall be fined not exceeding twenty dollars.

Medical Laws of Connecticut

Capacity, 26. Private. House Phys., A. A. Weeden. Supt., Imogene Slade.

Section 4714. Who May Practice Medicine, Surgery or Midwifery. —No person shall, for compensation, gain or reward, received or expected, treat, operate or prescribe for any injury, deformity, ailment, or disease, actual or imaginary, of another person, nor practice surgery or midwifery, until he has obtained such a certificate of registration as is in Section 4715 provided, and then only in the kind or branch of practice stated in said certificate; but this chapter shall not apply to dentists while practicing dentistry only; nor to any person in the employ of the United States government while acting in the scope of his employment; nor to any person who shall furnish medical or surgical assistance in cases of sudden emergency; nor to any person residing out of this state who shall be employed to come into the state to assist or consult with any physician or surgeon who has been registered in conformity with the provisions of this chapter; nor to any physician or surgeon then actually residing out of this state who shall be employed to come into this state to treat, operate, or prescribe for any injury, deformity, ailment, or disease from which any person is suffering at the time when such non-resident physician or surgeon is so employed.

Sec. 4715. Requirements for Obtaining Certificate of Registration.— No person shall obtain a certificate of registration as in Section 4714 required until he has passed a satisfactory examination before one of the examining committees appointed for the purpose by the State Board of Health, nor until he has filed with said Board duplicate certificates signed by a majority of said examining committee, stating that they have found him qualified to practice either medicine, surgery, or midwifery, nor until he has filed with said Board duplicate statements subscribed and sworn to by him upon blanks furnished by said board, giving his name, age, place of birth, and present residence, stating of what medical college he is a graduate, and the date of such graduation, together with such other information as shall be required by said blanks. No person shall be eligible to said examination until he presents to the committee, by whom he is to be examined, satisfactory evidence that he has received a diploma from some legally incorporated medical college. Any person passing such examination and filing said certificates and statements shall receive from said State Board of Health, upon payment of two dollars, a certificate of registration, which shall state that the person named has been found qualified to practice.

Sec. 4716. Nomination and Appointment of Members of Examining Committees.—The Connecticut Medical Society, the Connecticut Homeopathic Medical Society and the Connecticut Eclectic Medical Society shall each annually in December file with the State Board of Health the name of one physician, practicing in this State, who shall have been recommended by such medical society as a person competent to serve upon one of the examining committees appointed by the State Board of Health, as specified in Chapter 158 of the Public

Acts of 1893; and in case any vacancy occurs upon any of said examining committees, the president of the society of whose members said committee is composed shall nominate such a person to fill said vacancy. Annually in January the State Board of Health shall appoint one member of each of said committees, who shall have been nominated for such office as aforesaid, to serve five years; and said Board shall in the same manner fill any vacancy occurring in any of said committees.

Sec. 4717. Examinations. Papers Recorded. Lists of Colleges.—The said examining committees shall hold examinations on the second Tuesdays of March, July and November of each year, at such places as they may designate, and at such other times and places as they shall determine. Applicants for certificates to practice medicine or surgery shall be examined in anatomy, physiology, medical chemistry, obstetrics, hygiene, surgery, pathology, diagnosis and therapeutics, including practice and materia medica. Each committee shall frame its own questions and conduct its examinations in writing, and both questions and answers shall be filed with the State Board of Health. Each applicant shall choose by which of the three committees he shall be examined; but before taking such examination he shall pay to the committee the sum of fifteen dollars, provided, that the fee for examination in midwifery alone shall be ten dollars. An applicant, rejected by an examining committee, shall not be eligible to re-examination until after the expiration of twelve months. Upon the receipt of any duplicate statements as in Section 4715 provided, the State Board of Health shall transmit one of said duplicate statements, together with a duplicate of the certificate of registration in each case, to the town clerk of the town wherein the person so filing said statement resides; and in case such person does not reside in the State of Connecticut, the State Board of Health shall transmit said statement and certificate to the town clerk of the town in this state nearest to the place of residence of such person.

DENTAL LAWS OF CONNECTICUT.

State of Connecticut Dental Commissioners.

H. G. Provost, President, Winsted; G. M. Griswold, Recorder, Hartford; F. W. Brown, New Haven; D. E. Taylor, Willimantic; A. B. Johnson, New Britain.

An act concerning the Practice of Dentistry, as amended in Chapter 249 of Public Acts of 1907. Passed August 1, 1907.

Be it enacted by the Senate and House of Representatives in General Assembly convened:

Chapter 277 of the general statutes is hereby amended to read as follows: On or before the first day of July, 1908, and annually thereafter, the governor shall appoint one dental commissioner who shall hold office for five years from the first day of July succeeding his appointment and until his successor shall have been appointed and qualified. All vacancies occurring in the office of dental commissioner by reason of death, resignation, or other cause shall be filled by the governor.

No person shall be appointed a dental commissioner who shall not have been, for at least ten years next previous to such appointment, a practitioner in dentistry in this state, and in good standing in his profession. Said commissioners shall appoint one of their number to be their official recorder, who shall keep a record of their official proceedings, and copies of said record certified by him shall be legal evi-

dence. The controller shall provide a suitable place in the capitol for said commissioners. The commissioners shall meet in July of each year and at such other times as they shall designate.

No person shall engage in the practice of dentistry unless such person shall have first obtained from said commissioners a license. This section, however, shall not apply to persons engaged in the practice of dentistry who registered as dentists in this state prior to December 1, 1902, in the manner provided by said commissioners.

Every application for such license shall be in writing, signed by the applicant and no license shall be issued to any person unless he shall have received a diploma or other sufficient certificate of graduation from some reputable dental college, or medical college conferring a dental degree and having a department of dentistry, or unless he shall have spent five years under the instruction of a licensed or registered dentist, or unless he shall have had at least three years' continuous practice as a legally qualified dentist. All requisites under this clause shall be proven by documentary evidence, which shall accompany the application for examination.

Every applicant for a license shall be examined by said commissioners as to his professional knowledge and skill before such license shall be granted, and they may refuse to grant a license where they are satisfied that the applicant is unfit or incompetent; they may, for good and legal cause, revoke any license that has been granted, and may prohibit any dentist in lawful practice from further practice, on satisfactory proof that such dentist has become unfit or incompetent.

Upon the payment of a fee of twenty-five dollars, the dental commissioners shall, at their meetings, examine applicants and grant licenses to such applicants as they shall find qualified. An applicant who fails to pass a satisfactory examination shall be entitled to a re-examination at the next meeting of the commissioners without a fee, but for any examination at a subsequent meeting a fee of five dollars shall be paid.

All unlicensed assistants, who on January 1, 1907, were actually employed in performing dental operations on patients in the office of a duly registered or licensed dentist may register their names with the dental commissioners prior to October 1, 1907, upon the presentation of the affidavit of two registered or licensed dentists, stating the name and address of such applicant and the length of time he or she has been so employed, in such form as the dental commissioners shall prescribe.

No registered or licensed dentist shall employ an unlicensed assistant for independent dental operations except under the conditions provided for in section above.

The dental commissioners may, in their discretion, without examination issue a license to any reputable dentist of good moral character who shall have been in legal practice for five years or more in some other state or territory, upon the certificate of the Board of Dental Examiners, and upon the payment of a fee of twenty-five dollars to said commissioners.

Any duly licensed or registered dentist who is desirous of changing his residence from this to another state shall, upon application to the dental commissioners receive a certificate which shall attest that he is a duly licensed or registered dentist in this state; and said certificate shall be given without the payment of any fee thereof.

Every person who shall violate any of the provisions of this chapter shall be fined not more than one hundred dollars, or imprisoned not more than six months, or both; and the unlawful practice of dentistry for each week shall be a separate offense. The county health

officer of the county within which any violation occurs or is committed shall have jurisdiction to prosecute therefor.

This act shall take effect from its passage.

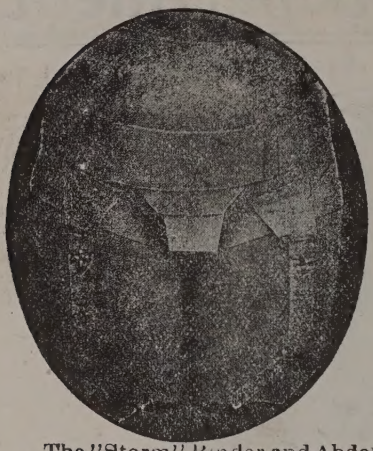
A Supporter In Harmony With Modern Surgery.

The "STORM" BINDER and ABDOMINAL SUPPORTER



Patented July 10, 1906

No Whalebones

No Rubber Elastic

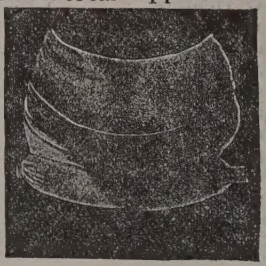
No Leather

Washable as Underwear

It Supports with Comfort

The invention which took the prize offered by the Managers of the Woman's Hospital of Philadelphia.

The "Storm" Binder and Abdominal Supporter is light (5 oz.), flexible, washable and durable, and without steel or rubber in its construction. It is used for any purpose for which an abdominal supporter may be needed for a man, woman or child. It is perfectly adapted for **general** support and by the special application of the reinforcing strap with a pad may be used for **local** support as for hernia especially ventral and umbilical variety. It is especially valuable for movable kidney and for relaxation with ptosis of stomach, liver or intestines, giving rise to symptoms of pain and obstinate indigestion.



Man's Belt Front View

As a **Post Operative Binder** it has no superior for comfort and efficiency, and may be adapted to the upper, middle, lower or lateral abdominal regions,, thus making it an ideal binder after operations upon the kidney, gall bladder, appendix or pelvic organs. The "Storm" Binder is a great comfort to women during pregnancy and the puerperium, and in conditions of bladder or pelvic inflammation marked relief is experienced by lifting the super-imposed weight from the congested parts by means of this soft elastic rubberless supporter.

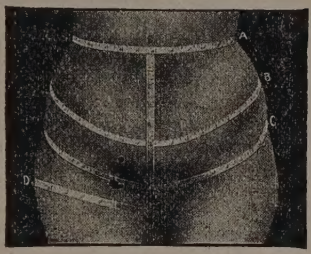
Directions for Measuring
FOR THE
"Storm" Binder and Abdominal Supporter



Draw the tapeline snugly around the body over the skin, as follows:

a—At the waist line.

b—At the middle abdomen (largest girth).

c—At the lower abdomen.

d—One thigh.

e—Top to bottom in front.

State whether for man or woman.

Special mention should be made of special needs giving conditions for which belt is prescribed, or location of any incision requiring support. A record is kept of all measurements so that belts can be duplicated by mail at any time, therefore, please give the full name and address of patients.

All Mail Orders filled within twenty-four hours on receipt of price. Prices Net. Cash must accompany mail order, P. O. Money Orders preferred.

All are washable as underwear.

Styles	Prices
Linen mesh	$10 00
All silk	8 00
Half silk	6 00
Double thread cotton	5 00

Additional charges made for extra sizes and unusual styles.

The linen mesh "Storm" Binder, price $10.00, is the best for any purpose, all others are substitutes in selected cases. It is the most sanitary, being absorbant and cool, strong to wear, and giving adequate support.

The all silk "Storm" Binder, price $8.00, is especially agreeable to delicate skins. Some physicians prescribe it for the tonic effect.

The half silk "Storm" Binder, price $6.00, is somewhat heavier and warmer than all silk.

The double thread cotton "Storm" Binder, price $5.00, is a serviceable belt for a working man or woman.

There is no rubber elastic nor leather about any of these binders. They will wear from one to three years, but no guarantee goes with them because they are not proof against hard usage.

The use of the "Storm" Binder interferes in no way with the wearing of a corset. It is a comfortable belt for sofa or bed wear and athletic exercise.
